<p>MyPublisher</p> <p><i>At the printing of this book, I have heard some photographers not as pleased with their books produced by MyPublisher. The problems were in the quality of the printing.</i></p>	<p>Good printing, same level quality binding as Blurb, though hardcover laminate isn't as nice. Hardcover books have vellum fly sheets added to the front back of the inside book covers. Offering landscape books only: 3.5 x 2.75 mini book can only be 20 pages and costs \$2.49 For 30 pages minus shipping: 7.75 x 5.75 Pocket softcover starts at \$14.89 7.75 x 5.75 Pocket hardcover starts at \$24.89 11.25 x 8.75 Classic hardcover starts at \$39.89 15 x 11.5 Deluxe hardcover starts at \$79.89 For super gloss paper/printing, add \$10 per book to Classic hardcover bks up to 100 pgs. and \$20 per book to Deluxe hardcover. For new lay flat binding (up to 100 pages), add \$10 per book for Pocket hardcover, add \$20 per book for Classic hardcover, and add \$40 per book for the Deluxe hardcover. You have a large choice of covers such as linen and leather. (MP charges a base rate plus per-page)</p>	<p>MyPublisher offers design software that you download to your computer with separate versions for Mac and PC. If you need help, templates are available but you also have the option to customize the design and layout of your pages. The file sizes can go as high as 900 MB, so be sure you have space and memory to manage them.</p>	<p>No. If you want even more design control than what MyPublisher offers with their software program templates, your only other option is to create full size page layouts in Adobe Photoshop or a similar image editing program and then save the individual pages as flattened JPG files that you can import into MyPublisher's software program just as you would a photo.</p>	<p>HP Indigo Digital printer. MyPublisher accepts images saved as JPG only. It's recommend you use sRGB or RGB for best color output. Their printer does not recognize gray-scale images so those too must be saved in RGB mode. Files should be 300 dpi at the size you want printed.</p>	<p>Mini books, Pocket and Classic hardcover books all print on a 115# gloss sheet. The Deluxe hardcover prints on 182# gloss sheet. You can also pay extra if you want your Classic or Deluxe hardcover books printed on the new Super Gloss paper.</p>	<p>\$10 per book.</p>	<p>No</p>
<p>Shutterfly</p>	<p>Okay quality printing. I would not recommend for high-end art or photography books. Landscape or square books only. For 30 pages minus shipping: 7 x 5 softcover starts \$17.99 9 x 7 softcover starts \$20.99 8 x 8 softcover starts \$29.99 8 x 8 hardcover starts \$39.99 8 x 8 leather die cut starts \$49.99 11 x 8 softcover starts \$34.99 11 x 8 hardcover starts \$44.99 11 x 8 leather die cut starts \$54.99 12 x 12 hardcover starts \$69.99 12 x 12 leather die cut starts \$84.99 (Shutterfly charges a base rate plus per-page)</p>	<p>2 design options: Simple Path and a Custom Path system. With Simple Path, you upload your images and Shutterfly instantly creates your book by arranging the photos chronologically with 20 pre-set backgrounds to choose from. With Custom Path, you have creative control moving pictures and text in addition to having access to backgrounds, layouts, and embellishments.</p>	<p>No. If you want more design control than what is offered with Shutterfly's software program templates, your only other option is to create full-size page layouts in Adobe Photoshop or a similar image editing program and then save the individual pages as flattened JPG files that you can import into Shutterfly's software program just as you would a photo.</p>	<p>Fuji Frontier Digital printer. Shutterfly accepts images saved as JPG only. It's recommend you use sRGB for best color output. Files should be 300 dpi at the size you want printed.</p>	<p>100# gloss</p>	<p>There is no option at this time to print your book without the Shutterfly logo.</p>	<p>No</p>
